Brief Summary About Neri Hydro

M/S Neri Hydro Power Project is going to be execute is small hydroelectric project proposed on neri stream which is a tributary of Beas river the scheme has been finalized after alternative studies the alternative gives maximum generation of power there for it has been taken for preparing detailed project report of the scheme The main business of the peoples in the project area is agriculture farming and vegetables production etc. The area is developing rapidly because of road /rail connectivity and people are using new technique in their business. The project life in the lower Dhauladhar range the reason is covered with uniform patches of barren land as well as small forest there is a reasonable good network of roads in nearby area. M/S neri hydro project pvt ltd. Has obtained all statuary/non statuary clearances to start the execution of the neri shep except forest clearance which is to be issued by the MOEF. The company has deputed well qualified and experienced persons at site/ office to execute the project.

The proposed site for hydro power project

MISSION:

Development of Neri small hydroelectric power project will contribute to electrification of nearby un-electrified villages and better power supply to already electrified villages and towns. This leads to improve living and education standards of the area. Mini scale industries can be established and modern techniques can be applied for irrigation & agricultural production by
